<b>Engines</b>	2 John Deere 4045 AF85 225 HP@2600 rpm.	<b>Crew cabin</b>	1
		<b>Built</b>	2022

The Bering 70 Levanna, unique just like any of her sisters, offers enhanced comfort and safety features thanks to her design and the implementation of innovative technologies on board. The reverse-raked bow reduces pitch at sea and the Seakeeper stabilizer system ensures stability either at sea or in an anchorage. Extensive insulation, shaft and propulsion design, and other vibration-preventing measures reduce noise and vibration levels to very comfortable minimums.

## Flybridge

**Main Deck**

**Lower Deck**

# Take a look inside

A flexible semi-custom platform, this boat is configured with one large master stateroom, one forward VIP stateroom and a starboard guest stateroom. A dedicated crew cabin is located aft separately from the owner/guest accommodations.

Clean crisp lines and a greater use of fabrics and non-traditional woods suggest a more contemporary designer approach. Emphasizing space and comfort, B70 LEVANNA exudes chic luxury in every element, from a comprehensively equipped saloon and galley to a large sun pad, beautifully furnished cockpit and convenient flybridge deck.
