New motor yacht Bering 70 under construction at Bering Yachts

August 28, 2014

[Bering Yachts](#) is currently working on the construction of a new Passagemaker, motor yacht Bering 70, being built in Antalya, [Turkey](#). Luxury yacht Bering 70 is a semi-custom coastal vessel, based on a highly efficient hull design.

New motor yacht Bering 70 by Bering Yachts

Some of the aims set in designing the new Bering 70 yacht were to create a vessel that has capability and a smooth easy motion even in the roughest conditions, allows for easy navigation into beaches and rivers (the mast can rotate down thru 90 degrees to reduce air draft), has a highly efficient and easily driven hull form requiring only low power engines giving excellent fuel economy, is spacious and luxurious for extended cruising or living aboard, has large outdoor spaces, and embraces 'green technology' throughout in its design thinking.
