

YACHTS AND BOATS

LUXURY BERING 70 YACHT

Since its founding in 2007, Bering Yacht brand creates a series of different luxury yachts, with both classic and modern design...

This time, the company Bering Yacht is working on a new project titled Bering 70, and it is currently under construction in Antalya. It is a yacht of 70 feet, which has a very efficient hull design and is perfect for long trips in any environment, while its passengers are safe and enjoy the comfort. This boat is very easy to operate, for the sake of perfect comfort. It is spacious and luxurious enough that you can live on it, if you decide to take say, a constant journey around the world.

Depending on the material that the client chooses for the construction of the hull, and one can choose between aluminum and steel, Bering 70 yacht comes with two options in terms of engine and can reach speeds between 13 and 25 knots. Also, there are two versions of the design, with or without the bridge and optimized green technology.
