

Bering 80 Veda Is Successfully Launched

We are proud to announce the successful launch of the Bering 80 *Veda*. The full displacement steel yacht is currently the flagship of the Bering fleet and the fourth vessel in the Expedition Class series. The boat is the heaviest in her class, displacing 485,000 pounds (220 tons) and has a fuel capacity of over 12,885 gallons (48,775 liters).

Her masculine blue/grey, crisp, and striking exterior is complemented by a classical rich Makore interior mixed with marbles, granite and hand-crafted furniture. Spacious, elegant and practical, *Veda's* massive 25-foot 8-inch (7.8 meters) beam gives her an

immense amount of onboard space and the ability to comfortably accommodate eight guests in her four luxurious staterooms and four crew members, all with en-suite bathrooms.

She features cutting-edge noise and vibration insulation solutions, which the shipyard states will contribute to a relaxed and peaceful atmosphere on board. The vessel is fitted with a Sidepower hydraulic stabilizer system, making her stable and comfortable in all weather conditions.

Veda is powered by twin Cummins QSM-11, 350 HP engines, has a range of 6,000 Nm at a speed of 9 knots and can reach a maximum speed of 12 knots.

Completion of 3,600 Nautical Mile Journey

We are proud to announce the most notable voyage so far for the Bering 65 *Serge*. The vessel cruised nonstop for 22 days, 3,600-nautical-miles from Phuket, Thailand, to Busan (Pusan), Korea.

Towing a 40-Fountain Sportfisher that displaces 9,000-lb. (4 tons), and with three people on board, *Serge* cruised with one engine at a time at a speed of 6.5-7.5 knots,

burning 2,641 gallons (10,000 liters) of fuel and managing to get back to the shore with one third of the fuel remaining in the tank.

The owner of *Serge* operated the vessel on autopilot most of the time and he said it functioned without any issue. His future destinations include cruising to Vladivostok, Russia and then the Gold Coast of Australia.

Bering 65 Namaste in Fort Lauderdale

After completing over 2,000 hours on the engines and cruising over 10,000 miles around Eastern Asia and Australia, the Bering 65 *Namaste* has arrived in Fort Lauderdale, Florida, in the United States.

The vessel will be moored in Florida for the next three months and she is currently available for viewing. Please contact us at info@beringyachts.com for more details.
