

BERLING 105

INTRODUCING THE BERING 105

By popular demand, the Bering 105 was designed just in 2 weeks. Building upon the immensely successful Bering 88 the B105 offers a significant 6-meter LOA increase, providing an even more spacious and luxurious experience without compromising on the core Bering values of seaworthiness, comfort, and reliability.

Despite the added length, the Bering 105 maintains the same inviting guest capacity as its predecessor. The increased footprint, however, translates to more expansive interior and exterior spaces. Imagine a swim platform that truly invites you to dive in, or a beach club that can be transformed into a serene spa or a well-equipped gym. Every corner of the Bering 105 is designed to elevate your yachting experience.

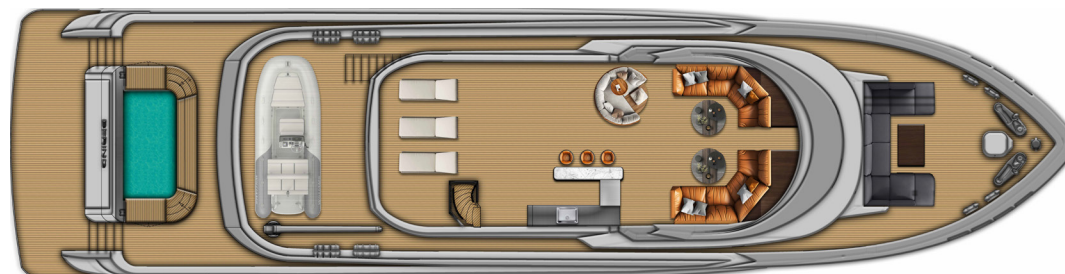

BRIEF SPECIFICATION

Length Overall (LOA)	32.21 m (105'6")	Cruise speed	9 knots
