

EXPEDITION CATAMARAN BC80

"At Bering Yachts, we are passionate about crafting exceptional explorer yachts that redefine the boundaries of maritime adventure. Our expertise extends beyond size, encompassing both superyachts exceeding 24 meters and meticulously crafted yachts under 24 meters.

Every Bering yacht, regardless of size, is meticulously constructed from high-grade steel, prioritizing safety, comfort, and the ability to navigate the world's most remote corners with unwavering reliability. We ensure our yachts are self-sufficient, enabling you to venture into uncharted territories with the confidence that every luxury and convenience is at your fingertips. With Bering Yachts, the world is your limitless exploration playground."

Alexei Mikhailov
Founder and CEO
of Bering Yachts

Why Bering

Your vision, our expertise

Bering Yachts crafts personalized vessels designed to exceed every owner's expectations. We offer complete personalization for superyachts over 24 meters. For the boats under 24 meters, we ensure the same level of comfort, safety and ocean-crossing range as any other explorer yacht in our range.

Seamless support every step

From pre-sale consultations to after-sales management care, your dedicated personal manager ensures a smooth and rewarding experience. Hospitality, concierge services, and travel inspiration are all within reach.

Prime shipyards, global reach

Our Turkish shipyard in Antalya, nestled amidst the stunning Mediterranean coastline, serves as a central hub for international clientele. Its proximity to Istanbul, a global travel crossroads, facilitates seamless accessibility for clients worldwide. Our Bulgarian Shipyard, a rising superyacht hub — provides unparalleled expertise and accessibility.

Bering Club

Where ownership meets community. As a Bering owner, gain exclusive access to the prestigious Bering Club. Connect with fellow explorers, share experiences, and elevate your yachting journey.

Bering Catamarans: Your Gateway to Unforgettable Adventures

Bering Yachts is thrilled to unveil a groundbreaking new addition to our model range: the BC60, BC70, and BC80 aluminum catamarans. These exceptional vessels combine Bering's renowned craftsmanship with cutting-edge technology, delivering unparalleled stability, comfort, and reliability.

Designed for Epic Voyages

Engineered for long-range cruising, the Bering catamaran line offers remarkable flexibility and customization options. With a choice of layouts accommodating 4 to 6 guests, these vessels are perfect for both private owners and charter operators.

Unmatched Stability and Comfort

Experience the serenity of a catamaran voyage with the Bering BC60, BC70, and BC80. The catamaran design provides exceptional stability, ensuring a smooth and comfortable ride for everyone on board. Whether you're exploring the Caribbean's crystal-clear waters or navigating the Mediterranean's ancient shores, these vessels offer the perfect blend of adventure and relaxation.

BC80

Brief specification

Length Overall	78'7" (24 m)

Key features:

Safety

Unmatched peace of mind. Bering Yachts are a legacy of unwavering safety. Founder Alexei Mikhailov envisioned vessels you could trust with your life, and that commitment remains our core principle. Industry-leading safety and life-redundancy systems are built into every yacht. Fire-resistant materials and meticulous construction ensure your well-being at sea.

Comfort

Where luxury meets tranquillity. Every Bering yacht is meticulously engineered for minimal noise and vibration, even at sea. Spacious galley cabinetry ensures effortless meal preparation, while ample wardrobe space caters to every guest. Advanced insulation and air conditioning maintain the perfect temperature, be it an arctic adventure or a tropical escape.

Range

Limitless exploration. Every Bering yacht boasts an impressive transatlantic range, empowering you to conquer vast distances. For the truly adventurous, Bering 88 and above, push the boundaries of exploration. Bering Yachts prioritize efficient performance, ensuring the range adapts to your cruising style. Discuss your exploration goals and discover the perfect Bering yacht to fuel your voyage.

Self-sufficiency

Explore further, for longer. Our vessels redefine self-sufficiency, empowering you to venture further for longer. Dual power sources ensure uninterrupted freedom; advanced watermakers transform seawater into freshwater, while spacious freezers and ample storage keep provisions perfectly preserved, enabling weeks or even months off-grid.

Sustainability

Leave a lighter footprint. Bering Yachts champions responsible exploration with advanced watermakers and onboard waste treatment systems. These features minimize your environmental impact while maximizing your self-reliance. Freshwater becomes readily available, and waste is processed responsibly, allowing you to explore with a clear conscience.

Versatility

Your yachting adventure is defined. Bering Yachts adapt to your vision. Weekend escapes, extended expeditions, or full-time living – our vessels seamlessly transform to suit your desires. Navigate vast oceans, explore hidden coves, or embark on a lucrative chartering career. With Bering Yachts, the possibilities are limitless.

BC60 Hull №2 Keel Laying

📍 Bering Shipyard Bulgaria

Why Aluminum?

The Bering Advantage

Our new line of BC60, BC70, and BC80 exploration catamarans are built with aluminum hulls for several compelling reasons. Aluminum offers a unique combination of strength, durability, and weight savings, making it the ideal material for long-range exploration vessels.

Exceptional Strength-to-Weight Ratio:

Aluminum is incredibly strong yet lightweight, allowing for larger interior spaces and greater fuel efficiency.

Corrosion Resistance: Aluminum is highly resistant to corrosion, ensuring your vessel remains in pristine condition for years to come.

Excellent Weldability: Aluminum can be easily welded, creating seamless joints and ensuring the structural integrity of the vessel.

Enhanced Maneuverability: The lighter weight of an aluminum hull contributes to better handling and maneuverability, making it easier to navigate in challenging conditions.
